

# Marshal's Registration Form

Thank you for volunteering to help with our event. To be a marshal you do not have to be a member of any motor club and full instructions and control location information will be issued at signing on. You will require an Ordnance Survey map 1:50,000 179 in order to find your control location. You are there to give the cars a time at each control from the supplied digital watch. Or if you are manning a passage control you sign in the relevant box on the navigator's time card. The Chief Marshal will run through exactly what is required when you sign on. Should you be coming with another marshal to man a control (this is encouraged) please put both details on one form and return to [chiefmarshal@b18mc.com](mailto:chiefmarshal@b18mc.com)
